PROFILE

I'm Omar, an engineer whose love for sport became a career. For more than ten years I've been producing and designing sports content, and for over seven I've been managing sports projects from the first idea to final delivery, working with agencies and as a freelancer across the Gulf and beyond. I lead content strategy, campaigns and digital launches in both Arabic and English. I also build and guide diverse teams and get the best out of their skills, on the ground and behind the screens. Along the way, I've had the privilege of working on projects for the Saudi, Qatari and Emirati football federations, France's Ligue 1, and clubs like Al-Ittihad, Chelsea and Manchester City.
